

# Wymeswold Airfield

Leicestershire, UK

- 15% more energy output than expected
- 32.2MW system + 2,2MW added in 2014

34.4<sup>MW</sup>

System

32,74<sup>MWh</sup>

Annual energy

140,000

modules

Ground  
Mounted

System

Richard Green, Head of Lark Energy Services

Set over 150 acres of land, Wymeswold is a former RAF Airfield near Loughborough in Leicestershire, UK. Having been decommissioned by the Air Force several decades ago, the site now has a mixture of agricultural, leisure and sporting uses, hosting an HGV training centre and a kite club – among other things. With a mind to improving the site's energy efficiency and optimizing the space, Wymeswold's owners contracted S.A.G. Solarstrom AG to design and build a ground-mounted solar PV array that would plug into

RAF A. Solarstrom AG to deCOMPLmod at3(s a45(t)6.713s a452)Tj/

## Wymeswold Airfield

UK's largest utility PV plant

**LOCATION**  
Leicestershire, UK

**SYSTEM TYPE**  
Ground-Mounted

**SYSTEM SIZE**  
34.4MW

**PRODUCT**  
TSM-PC05

**NUMBER OF MODULES**  
140,000

**ANNUAL ENERGY OUTPUT**  
32,740MWh

**COMPLETION DATE**  
March 2013
